

Mini Med School

for the general public

Come learn about healthcare, medical practice and how to talk to your doctor.

Mini Med School is a ten-week program designed to enlighten and provide a scientific background that will improve your understanding of the human body. This course will help you take charge of your own health. You will not get a medical degree nor can you practice medicine, but you will get the background, the overviews, and the updates needed to familiarize yourself with healthcare topics.

First Semester: Basic Anatomy and Physiology

Learn how the body is put together and how it works.

Second Semester: Socio-economic, Political and Ethical Aspects of Medicine

Including healthcare reform and end of life issues.

Dates: Thursdays: Sept. 9, 23, 30, Oct. 14, 21, 28, Nov. 11, 18, Dec. 2, 9
