DYERSBURG STATE COMMUNITY COLLEGE
POSITION ANNOUNCEMENT

Instructor of Advanced Manufacturing Technology

DSCC is currently accepting applicants for a full-time Instructor of Advanced Manufacturing Technology in the Division of Business, Technology and Allied Health. This position reports to the Dean of the Division of Business, Technology and Allied Health. This position is contingent upon grant funding.

ESSENTIAL FUNCTIONS

- Participate in training offered by the equipment vendor to prepare to teach courses in the Advanced Manufacturing Technology degree.
- Teach 30 hours (TLE) per academic year a combination manufacturing skills, such as mechanical, electrical, hydraulics, pneumatics, Programmable Logic Controllers/Computer Numerical Control, robotics.
- Flexibility to teach evening, weekend, and/or off-campus classes as needed (requires use of personal vehicle).
- Practice a learning-centered educational philosophy and design courses to include research-based learning strategies including service learning opportunities, learning communities, critical thinking skills, cooperative learning, and reading across the curriculum.
- Develop web-enhanced courses for delivery in technology-enhanced classrooms or online.
- Become certified in using the course management system for all classes.
- Develop courses for delivery via interactive television.
- Work with colleagues to assess the effectiveness of courses, analyze the results, develop and implement improvement plans, and document this information on an annual basis in the form prescribed by DSCC.
- Revise and develop curriculum in cooperation with colleagues; assist in preparation of schedules and in selection of textbooks (including e-textbooks when appropriate).
- Participate in professional development and maintain membership in an appropriate regional, state and/or national organization related to teaching assignment at DSCC.
- Be trained as a Master Advisor.
- Advise students, maintain regular office hours, and participate in campus life and committee work of the college.
- Assist in identifying and mentoring adjunct instructors.
- Actively communicate with colleagues using email and other electronic means.
- Must communicate well in oral and written English.

MINIMUM REQUIREMENTS OF EDUCATION AND EXPERIENCE:

Associate degree in Manufacturing Systems, Engineering or related field required. OSHA trained and certified is preferred. Experience in manufacturing, classroom and online training and in skills assessment preferred.
Salary is commensurate with college pay scale. Review of applicants begins immediately and continues until position is filled. To apply for this position, send an official DSCC application, resume, cover letter, three current professional letters of recommendation, and official transcripts to:
