

How to check out any DSCC STEM resources:

It's so EASY and takes only a few minutes !!!

Bring your driver's license to the Help Desk/Circulation Desk where you are borrowing the STEM resource(s) so that we can make you a Community User ID and enter your information as a library borrower in the circulation system.

It may be preferable to call the library (see contact information) ahead of time to be sure the item(s) you need are available, which also gives our library staff time to pull the items from the shelves so they are ready for you when you arrive.
