

How to Connect to DSCC Student Wi-Fi

Fall 2026 Connection Instructions

Before you begin: Each student receives a unique Wi-Fi passphrase linked to the student's DSCC account. The same passphrase may be used on all of your personal devices. Save the passphrase securely and do not share it with others.

Follow the steps below to obtain your personal passphrase and connect to the dsccl-student wireless network.

Step 1: Open the registration portal

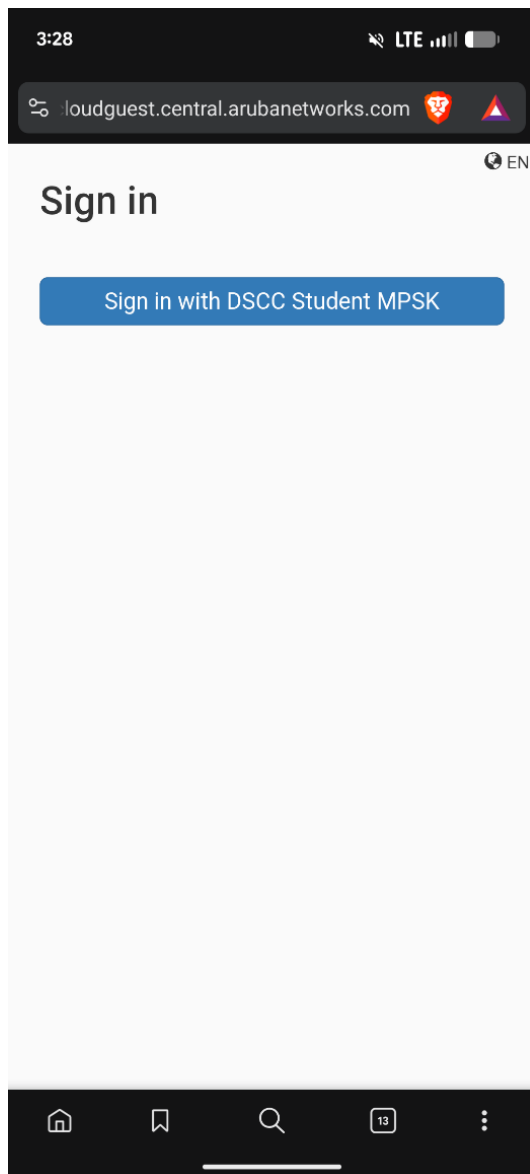

Scan the QR code below with your device's camera. You may also use the direct registration link shown beneath the QR code.

Direct link: [Open the DSCC Student Wi-Fi registration portal](#)

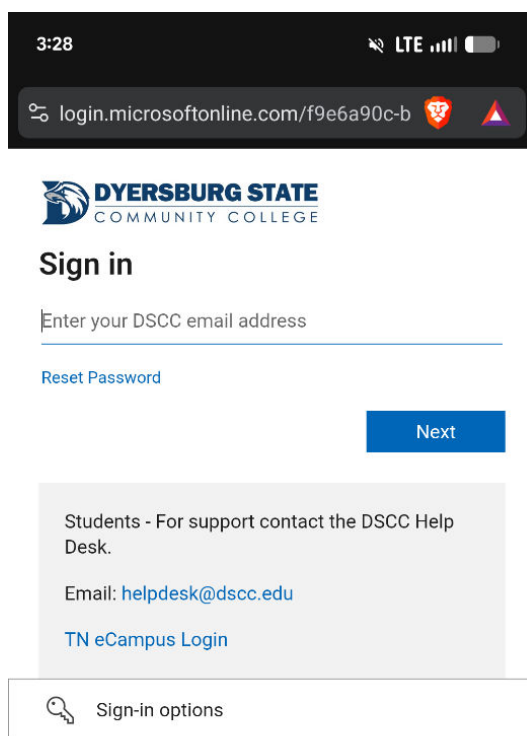

Step 2: Choose the DSCC student sign-in option

On the registration page, select **Sign in with DSCC Student MPSK**.

Step 3: Sign in with your DSCC student account

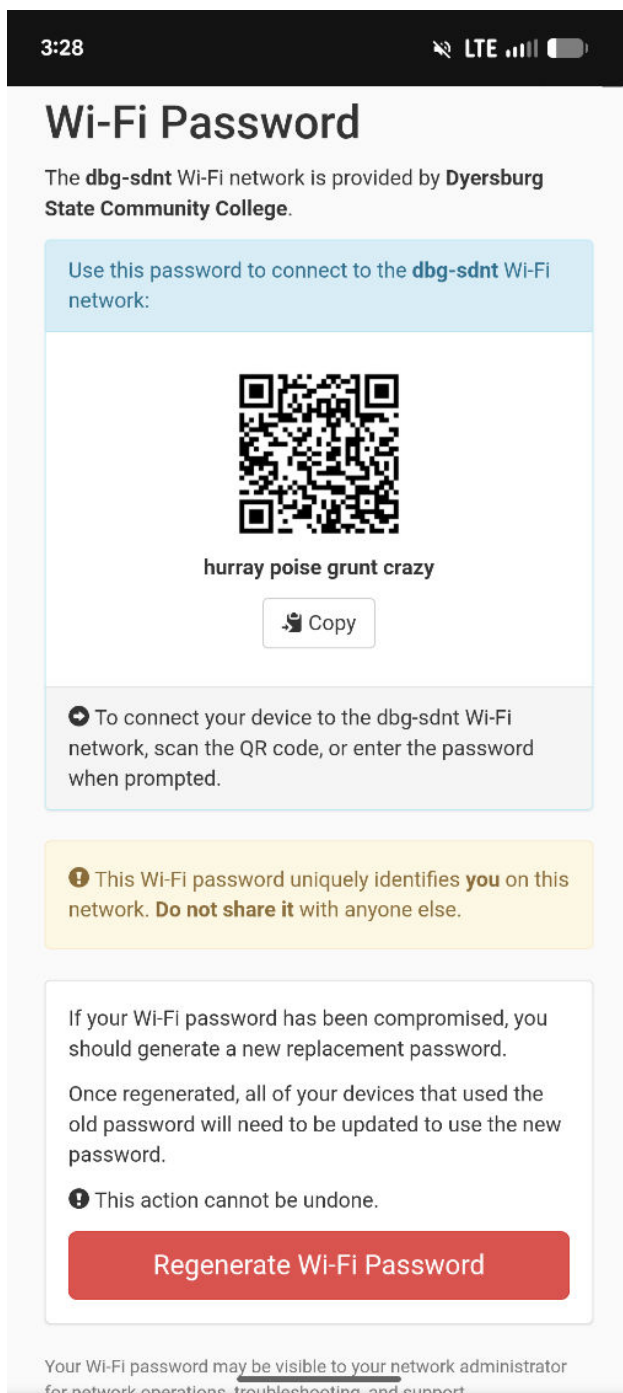

Enter your DSCC student email address, such as *example@my.dsc.edu*, and select **Next**. Complete the sign-in process if prompted.

The screenshot shows a mobile browser interface. At the top, the status bar displays the time 3:28, LTE signal, and battery level. The address bar shows the URL `login.microsoftonline.com/f9e6a90c-b`. Below the address bar is the Dyersburg State Community College logo. The main heading is "Sign in". A text input field is labeled "Enter your DSCC email address". Below the input field is a link for "Reset Password". A blue "Next" button is positioned to the right of the input field. Below the "Next" button is a grey box containing the text "Students - For support contact the DSCC Help Desk." followed by "Email: helpdesk@dsc.edu" and "[TN eCampus Login](#)". At the bottom, there is a white box with a magnifying glass icon and the text "Sign-in options".

Step 4: Copy and save your personal Wi-Fi passphrase

The portal will display your unique Pre-Shared Key (PSK). Copy or securely save this passphrase. You will use the same passphrase to connect each of your personal devices to **dsgc-student**. **Do not share it with other students**. *Note: the passphrase in the screenshot below is an example only and should not be used.*

Step 5: Open your device's Wi-Fi settings

Open the wireless or Wi-Fi settings on your device and select **dscs-student** from the list of available networks.

Step 6: Enter your passphrase

When prompted for the network password or security key, enter the personal passphrase you saved in Step 4.

Step 7: Confirm the connection

After your device connects successfully, you may begin using the DSCC student wireless network.

Need assistance?

If you have difficulty obtaining your personal passphrase or connecting a device to dscs-student, contact the DSCC Help Desk:

- **Phone:** [731-286-3280](tel:731-286-3280)
- **Email:** helpdesk@dscs.edu
- **Online:** [Visit the DSCC Help Desk webpage](#)

When requesting assistance, describe the device you are using and the step where the problem occurred.

Do not send your personal Wi-Fi passphrase by email.

Frequently Asked Questions

Why is DSCC changing the student Wi-Fi connection process?

The new process gives each student a unique Wi-Fi passphrase linked to the student's DSCC account instead of relying on a single shared wireless password.

Can I use the same passphrase on more than one device?

Yes. Use the personal passphrase generated for you to connect each of your personal devices to dscc-student.

What should I do if the QR code will not scan?

Use the clickable registration link in Step 1 instead. If the link is opened on the device you want to register, complete the sign-in process on that device.

Which account should I use to sign in?

Use your DSCC student email address ending in **@my.dsc.edu**. If a different Microsoft account appears, sign out of that account or use a private browsing window, then try again with your DSCC student account.

What if my device continues trying to use the old Wi-Fi password?

Open the device's Wi-Fi settings, forget or remove the saved dsc-student network, and then reconnect using your personal passphrase.

What if I lose or forget my personal passphrase?

Return to the registration portal in Step 1 and sign in with your DSCC student account to view the passphrase associated with your account. If you still cannot retrieve it, contact the DSCC Help Desk.

Should I share my passphrase with another student?

No. Your passphrase is associated with your DSCC account and should be kept private. Each student should register for a separate personal passphrase.

Who can help if I still cannot connect?

Contact the DSCC Help Desk by phone at 731-286-3280, by email at helpdesk@dsc.edu, or through the DSCC Help Desk webpage. Include the type of device and the step where the problem occurred, but do not email your personal Wi-Fi passphrase.
